- Pick up / drop off procedure reminders...please be sure to read pages 72-75 in the Handbook for proper drop off / pick up procedures. Safety of the children is of the utmost importance!
Important drop off notes: The morning curbside drop off is only to be used by parents dropping off children without the need to get out of the car and assist students. Under no circumstances should the driver door and/or street side door be opened. If your child cannot exit the car on their own at drop off, please park in the parking lot and walk them into the building. Please use the cross area. Drivers: please be mindful of walkers and other cars during drop off and pickup.
Important Pick up notes: The car line at pickup has a specific flow of row to row (starting on the left and moving to the right). Once the lot supervisor walks along the first row reading the car #s, only those cars in the first row file across the street in order of left to right for pick up. Then the lot supervisor then starts reading the next row of car #s along the row (left to right). It is very important for everyone's safety to follow these procedures. Thank you!
- A HUGE thank you to all who helped with our many events last week...Back to School Mass & Meet the Teacher: Angie Wrzos & her team did an amazing job on the Used Uniform Sale!; Pre-school Information Night; New Family Pizza Party & Buddy families and the Welcome Back Coffee!
