

Mark your calendars...**Screenagers** has been rescheduled for **Tuesday, February 18 (during school for grades 6-8 & after school showing at 6pm!)**

As a reminder, Saint Anne purchased the rights to show "Screenagers" an award-winning film that probes into the vulnerable corners of family life and depicts messy struggles over social media, video games and academics. The film offers solutions on how we can help our kids navigate the digital world. Runtime is about 67 minutes. [Click Here](#) to view the trailer. The video will be shown during school on 2/18 to graders 6-8. A second "after school special" showing will also be made available that same afternoon for Middle School-aged kids as well as parents. Please mark your calendar and spread the word as we are opening this up to the Parish and Barrington community!

Here's what some others are saying about Screenagers:

"My husband and I have just been very concerned about this issue for some time, and as I'm a geneticist at UCSF Children's Hospital Oakland, I'm very interested in the science behind it. The film is first rate- you've made a REMARKABLE piece: thoughtful, provocative and beautifully filmed and edited." -Beth T., Geneticist at UCSF Children's Hospital

"I got my daughter's feedback on the movie and I want to thank you and your team! She learned a lot and has requested restrictions on her phone usage. I'm really happy for you and the success of this project and grateful for its impact!!" -Amy S. School Administrator
